10208 Grafton Road, Raleigh, NC 27615

I am a web developer with a certificate in Full Stack Web Development from the University of North Carolina. I have degrees in History and Spanish (bilingual) from Appalachian State University. After 14 years in the hospitality industry I have proven my ability to focus on the customer experience while enhancing the restaurant's brand message in addition to collaborating with other small businesses and the hospitality industry as a whole. I excel in fast paced, team oriented environments that require hard work, attention to detail, and the ability to adapt. My objective is to join an entrepreneurial web development team with the goal of building a better web experience.

Web Development Skills/Languages

HTML5	jQuery	Express
CSS	Ajax/API	Express-HandleBar
Javascript	NodeJS	Git/GitHub
